

STUDENT SETTING ENHANCEMENTS

Customizing Student Tools Access

Planned enhancements will expand educator control over student tool access within both the learning path and diagnostic experiences. These capabilities are designed to provide greater flexibility, personalization, and ease of use when managing student settings.

Key Capabilities

- Educators will be able to enable or disable individual student tools independently.
- Settings can be customized separately for the learning path and diagnostic experiences.
- Tool configurations can be tailored for each student, allowing for personalized support.
- Changes can be applied at scale to groups or all students, streamlining classroom management.
- Settings can be updated as frequently as needed, supporting dynamic instructional decisions.

Proposed Design Update

The initial design concept includes an intuitive interface that simplifies configuration and adjustment. Ongoing development will incorporate feedback from Texas educators to ensure the feature meets classroom needs and usability expectations.

Below is a mock-up from a development account (no real student data) for how this updated feature is expected to look within the Exact Path interface for educators.

The mock-up shows the Edmentum interface with a top navigation bar and a sidebar. The main content area is titled 'Manage Classes' and includes a 'STUDENT SETTINGS' tab. Below the tab, there is a section for 'MANAGE CLASSES' with a 'STUDENT SETTINGS' sub-tab. A dropdown menu shows '2 - 3-5'. A message states: 'Use these settings to setup accommodations for individual students. Select a class and toggle on each accommodation you would like to apply. Click the save changes button to save the settings.' Below this, there are three tabs: 'LEARNING PATHS', 'DIAGNOSTICS', and 'REPORTS'. A 'Save Changes' button is on the right. The main table has five columns: 'Student Name', 'Hide Calculator', 'Hide Dictionary', 'Hide Text-to-Speech', and 'Hide Translations'. The table lists three students: Abdirizak, Steve; Adenodi, Jose B; and Alper, Axel. Each student has checkboxes for each of the four tool categories.

| Student Name | Hide Calculator | Hide Dictionary | Hide Text-to-Speech | Hide Translations |
|------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| Abdirizak, Steve | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Adenodi, Jose B | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| Alper, Axel | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
